Message from the Founder

Nature has gifted abundant resources equally to all creatures in the universe without expecting anything in favour of return. Even so, mankind has made extensive use of such assets and in the name of SIXTHSENSE destroying the life of other Creatures. Anyhow, nature

tries its best to heal them. Humans need to understand that the extinction of other Creatures will make them attain a horrible destiny. Hence, it is our duty to show gratitude towards that by saving them. If we haven't taken any steps to save it, then at least we shouldn't be an obstacle during their process of restoring themselves. Nature does not expect anything from us during regeneration, apart from our cooperation. In preserving the resources left with us, we need to step forward and join hands to help save our beautiful home planet by taking a pledge.

Mr.D.Ganeshan
Koodugal Organisation

Mission

To save the environment around us by protecting the endangered species from extinction, minimizing and attempting to eradicate plastics by reusing and finding an alternative, using an innovative technique to refresh the dry borewell to conserve water supplies.

Vision

Reconstruct the world through constant healing of its resource misuse, and by regenerating its riches, enable our home planet Earth a better place to live in.

KOODUGAL's Objectives

1. To redeem the endangered species of 'sparrow' which is on the verge of extinction, by training students to build nests out of wood and individually maintaining them.
2. To install a separate forum in schools to create awareness on the importance of planting trees and protecting the flora and fauna.
3. To encourage students to take up research projects on the study of species and conduct exhibitions.
4. To create general awareness on the sensible usage of water resources.
5. To abandon the usage of plastics.

Who we are and where we operate?

Giant Leaps Begin with a Single Step...

In 2014, the Journey started as a member of CARE - the Eco Club of Sri Venkateshwara College of Engineering, supported by EMAI. We started a survey to identify areas in Chennai where House sparrow population is still existing. Based on the survey it was found that sparrow population is thriving in North Madras (Thiruvottiyur, Tondiarpet, Royapuram etc.,) and in pockets of Chintadripet, Triplicane, Urappakkam, T.Nagar. A step further, the members of EMAI and CARE started distributing nest boxes specially designed for House sparrow nesting and deter crows from taking away eggs from the nest. The result was very promising as the nest boxes were immediately adopted by the House sparrows.

We started our journey with the Sparrow conservation project and extended to other projects such as Waste Management, Biogas, String Arts. We unified people working in diverse fields unite to rejuvenate nature by various activities. We at this young age spend our leisure time creating awareness among students about nature conservation. Our success lies in incepting the idea in young minds and creating the opportunity to make tiny homes with their own hands. Our supporters are all like-minded friends who support monetary benefits and other voluntary actions. Our team members are highly experienced in connecting with society and in dealing with societal problems

Koodugal (NEST - Network for Environment sustainability Trust) as a unified team is trying to recreate, reduce and solve.

- By recreating a space for sparrow in your homes we are trying to save a species on the verge of extinction and thereby can balance the food chain.
- By reducing plastic waste, we can make the earth a better place to live.
- We have a solution to address both water scarcity and prevention of young children falling inside bore wells.

At large, Koodugal tries to restore our mother nature thereby can preserve the planet. It is made possible only with the support of people like you. We extend our gratitude to people and volunteers who are the pillars of Koodugal in achieving the target.
